

Maths expectations:

- Flashback 4 every day which should be evidenced in exercise books
- Use of white rose medium term plans is a non-negotiable. If you need to change topics round please let us know.
- The small steps (order in which lessons occur on the white rose website) should be taught in sequence as they build on prior learning N.B some orders have changed between v2 and v3 (which came out during 2022/23)
- White Rose PowerPoints should be used as standard- please adapt if you want to
- For problem solving, practical or lessons using the outdoor environment you may want to create your own input
- Outdoor learning environment to be used where appropriate, please evidence with photos in exercise books
- Every topic to begin with a practical lesson and end with a problem solving lesson. These do not be additional to lessons outlined by White Rose – just adapted.
- Every lesson should include extensions for children who have completed their classwork. Extensions should come from a range of sources e.g classroom secrets, Nrich, twinkl deep dive.
- Three green marking stickers to be put in exercise books each week for children to respond to

Booklets:

- If you are using questions from the white rose worksheets please use the booklets
- You are allowed to ask children to emit certain questions
- We do not expect all questions to always be completed by all children
- Booklets do not need to be used for every lesson, if you have a preferred activity please just make sure that it is evidenced in maths books
